Building Our Future Together

Construction Update | November 14, 2016

[Our Progress](#) | [Calendar of Events](#) | [Questions/Comments](#)

Below are updates for DeForest Area High School, Eagle Point Elementary School and Windsor Elementary School as we move through the phases of construction and grand openings!

Eagle Point Elementary School

November 11th update from Findorff Project Manager, Aaron Zutz

Blacktop, Tile, Paint and more!

Eagle Point has progressed a lot both inside and out. More asphalt has been laid in addition to sidewalks on site. The exterior of the building is getting closer to being complete for this phase.

More, including photos and what's coming up in the weeks ahead.

"Did you know?"

Concrete and cement are two different things. Cement is a fine powder that is actually an ingredient of concrete often made of limestone, clay and sand. Concrete is a mixture of water, cement and an aggregate, such as gravel or crushed stone.

WES is looking more complete every day with finishes such as light fixtures, ceiling tile and clocks all being installed. In addition, the freezer and cooler units, grease hoods and stainless steel have been installed in the kitchen. The exterior will be nearly complete before winter hits, as blacktop is laid and final grading is done. Flooring is planned to start in the coming weeks.

More, including photos and what's coming up in the weeks ahead.

"Did you know?"

WES has three hoods in the kitchen, two of which are exhaust hoods, and one condensate hood. Kitchen hoods are devices that contain a mechanical fan and hang above the stove or cook top and remove airborne grease, combustion products, fumes, smoke, odors, heat, and steam from the air by evacuation of the air and filtration through filter.
