A STEM PROGRAM FOR STUDENTS GRADES 5-12

The DEFO VEXIQ Competition Robotics teams teach students engineering, problem-solving and design skills while practicing teamwork and collaboration. Give your student a chance to creatively solve problems and compete with students from across the state with the chance to compete with teams from around the world!

5-6 INFO SIGN UP: 60 SPOTS AVAILABLE

When? After school from 3:10-4:15 in the Robotics Lab
5th Grade Students meet on Mondays starting September 18, 2023.
6th Grade Students meet on Thursdays starting September 21, 2023.

Season will run until the end of February for most students. The State competition is held the second weekend in March, and the Worlds competition is held the first week in May. Teams will know if they have qualified for State by the February Appleton Tournament. Teams going on to state will know their eligibility to move on to the Worlds competition by the end of the State Tournament. A required \$30 program fee can be paid through Skyward. Scholarships available to cover fee if needed.
