

SPAGHETTI DINNER AND SILENT AUCTION

GO GREEN FOR GINA

Gina Buettner is an amazing mother, wife, sister, daughter, friend, and teacher in the Deforest School District. Three years ago, Gina was diagnosed with Non-Hodgkin's lymphoma. Unfortunately, her lymphoma has returned. It was found after MRI scans showed a mass in her front left lobe earlier this year. Her treatment plan involves 3 - 28 day aggressive chemotherapy sessions, followed by stem cell transplant treatment. Her hospital stays will be considerable for this treatment (up to 12 days first 3 months and last month could be 30 days). All of which will increase their medical bills since everything is not covered. The family hopes to search other options to get a second opinion. Unfortunately, this would not be covered by insurance.

It is unknown when Gina will be returning to work. Her family is suffering from her loss of income. Please join us in support of the Buettner Family

SATURDAY, APRIL 28
