Signature of Club/Organization Advisor: \_\_\_\_\_

*This completed form must be turned into the guidance office by the advisor.*

Administrative Approval: \_\_\_\_\_ Date: \_\_\_\_\_

*Activities need to be approved only once.*

## Service Learning Projects:

1. Projects should be pre-approved by a high school administrator. Recurring projects need only be approved the first time they are done.
2. There should be no pay or academic credit associated with the project for the individual or the group.
3. The service activity must benefit others. For example, fundraisers for the benefit of a club would not qualify for members of the club. A fundraiser for a charitable organization for others would.
4. Questions on the validity of a particular service project will be directed to the high school administration.
5. Not all students involved in a project need to receive the same number of hours.
6. Students should keep track of own accumulated hours. Verification of the number of hours can be obtained from the counselors' office.
