## Area School District

*Building Our Future Together*

Construction Update | May 31, 2016

[Our Progress](#) | [Calendar of Events](#) | [Questions/Comments](#)

Below are updates for DeForest Area High School, Eagle Point Elementary School, and Windsor Elementary School as we move through the phases of construction and grand openings!

### DeForest Area High School STEM celebration

Several turned out for the beam signing on May 17 and 18.

## DeForest Area High School STEM

May 27 Update from Findorff Project Manager Aaron Zutz

Drastic changes to the high school have been made in the last few weeks.

### "Did you know?"

(regular feature at the bottom of each report)

The all-terrain crane that was used at the high school has a maximum lifting capacity of 75 tons, and a 125-foot boom . . . [more](#)

## Eagle Point Elementary School

May 27 Update from Findorff Project Manager Aaron Zutz

As excavation and site preparation continue towards the south, crews have started forming and pouring area A footings and foundation walls.

### "Did you know?"

Footings distribute the load of the building to the soil - the size of a footing is determined by the amount of load on the footing as well as the bearing capacity of the soil . . . [more](#)

## Windsor Elementary School

May 20th update from Findorff Project Manager, Sara Michalski

Recent progress:

- Footings & Foundation Walls at Area D (Kindergarten)
- Sleeving & Underground Plumbing Area C & D
- Joist & Decking of Area C (1st Grade) Continues
- Masonry Fire Wall

Click on the image below for more, including photos and what's coming up in the weeks ahead.

## "Did you know?"

It will take approximately 169 tons of steel to build the Windsor Elementary School. That is 338,000 lbs. or approximately 6,627 elementary school kids, eleven times the approximate number of children anticipated to start the new school year.

## Watch time lapse videos of construction process

*New feature on DASD Construction website!*

As the buildings start to take shape, a camera is being placed at each site to record the construction process. Every 2-3 weeks, we will post to our [DASD Construction YouTube Playlist](#) time lapsed videos documenting the work.

Here's a sample: watch 6 days of construction at Windsor Elementary School in 10 seconds!

WES Timelapse: May 13-23, 2016
