

Interested in hosting a short term Thai foreign exchange student?

Many of us have thought about the idea of hosting a foreign exchange student, but sometimes the commitment of a year can be a little daunting.

DeForest Area School District has the opportunity to host Thai students and their teacher **April 16-May 4**.

Students will live with host families from the DeForest Area and are expected to participate in the normal, daily routines of the family including attending school with their host sister or brother. The family responsibility is simply to make them a part of your everyday life.

Additionally, families are asked to pick up their Thai student at the Madison airport and return the student/teacher in Madison for an evening going away party and presentation of Thai culture.

Students do not need to have their own bedroom, but should have their own bed with some measure of privacy. Host families are not provided with a stipend. Please treat our Thai guest students like you would your own daughter or son.

At this time, we are seeking host families.

If you are interested, please pick up an application from the main office at the high school and return it back to the main office by **February 29, 2016**.

Applications are a key piece of matching the Thai students with a host family. So, please be complete.
