

FITNESS ROOMS

Fitness rooms at the high school and middle school have been constructed with PEP grant funds. The terms of the grant require that the equipment purchased by the grant is restricted to student use. Employee use of the fitness room is permitted on designated equipment that has been purchased with district funds. Employee use of the fitness room is permitted during non-working hours (including before and after work during posted hours for the fitness rooms and during unpaid lunch break) and upon completion of a fitness room waiver.
